Darling, I Want To Destroy You

Afi

Were you dying to go?
You just looked so exposed
Demure through the dark dancing lights
I glided by, I can't deny that the shadows
Betrayed you and I on that night
Oh, I must confess I am overdressed
Are you not impressed?
Darling I want to, I'll confess this too
Must you know the truth? This is all for you
Darling, I want to destroy you
As you reached for my hand
Did you then understand
It was I who would lead you that night?
When you begged to know I was glad to show
That I needn't be scared, either way I still bite
Oh, I must confess I am overdressed
Are you not impressed?
Darling, I want to, I'll confess this too
Must you know the truth? This is all for you
Darling, I want to
So here's the final scene
When I finally come clean
I've watched you for years, years
And here's my favorite part
When you beg for my heart and I disappear
Oh, I must confess I am overdressed
Are you not impressed?
Darling, I want to, I'll confess this too
Must you know the truth? This is all for you
Darling, I want to
Darling, I want to destroy you
