Trust In God

Calee Reed

I have faith I trust in God
Even when it feels like I'm a lightning rod
For fear and doubt and sorrow too
Me and God both know that won't do()
Just gotta keep my head up and let Him work through me
All these tests and trials can make me blind
But even when I'm shortsighted, He still helps me seeThat if I keep faith and trust in God
That's when He'll make me a lightning rod
For faith and hope and good love, too
You and I both know that's what He'll do
()
Just gotta keep on going and remember that He's got a higher plan
Yeah all these tests and trials are just His way
Of knocking off my rough edges and making me all I amSo I'll keep faith and trust in God
Even when it feels like I'm a lightning rod
For fear and doubt and evil ways
He'll walk with me all my days()
Just gotta keep my head up and let Him work through me
Yeah all these tests and trials can make me blind
But even when I'm shortsighted, He still helps me seeI have faith I trust in God
Even when it feels like I'm a lightning rod
For fear and doubt and sorrow too
Me and God both know that won't do
()
Just gotta keep on going and remember that He's got a higher plan
Yeah all these tests and trials are just His way
Of knocking off my rough edges and making me all I am
I have faith and trust in God - that's when He'll make
me a lightning rod
