

Country As Me

Chase Rice

Dang gum. Look at her

Alright

Met a girl in mertyle beach
On the board walk makin sweet eyes at me
She could be a Georgia peach, a Bama babe or a Carolina queen

I thought "yeah look at that smile"
Daisy dukes that drive me wild
Backwards camo braves hat on
Cover bands rockin and she's singin along

Girl, climb on up into the cab of my truck
Slide over to the middle seat
You look like you need a rough neck
A lot more than a man who's sweet

Common girl let your hair down
Live wild and free
When I look into your eyes
I see a girl country as me

She was hot as fire under neon lights
DTF and lookin for a good time
We hit the clubs all night
Shut em down and watched that sunrise

God bless blue jeans blue eyes
Fallin in love on a miracle mile

Girl, climb on up into the cab of my truck
Slide over to the middle seat
You look like you need a rough neck
A lot more than a man who's sweet

Common girl let your hair down
Live wild and free
When I look into your eyes

I see a girl country as me

She don't like wine, she likes Jim Beam and Bud Light
Sittin on a tailgate round a bonfire
On a Oveyne county Saturday night

Climb on up into the cab of my truck
Slide over to the middle seat
You look like you need a rough neck
A lot more than you need a man who's sweet

Common girl let your hair down
Live wild and free
When I look into your eyes I see
When I look into your eyes I see a girl country as me
Country as me

Haha
girl, backwards hat, daisy dukes, fine as hell
Just my type

No, I don't have side steps
Jump on up into it
Have a good ole time
Now let's get out of here
