

Dearly Departed

Adrenaline Mob

I gave you everything
Took you under my wing
With open arms brought you in the family
You took the life from me
Now your my enemy
Soon to be a memory
Of the dearly departed We were the best of friends
Thought it would never end
I curse the day they said you're selling me out
Now everybody's hurt
You're singing like a bird
Spilling all your guts like a dirty rat When it's time to die
You can cry your heart out when you're lying face down
The chords they never lie
Don't tell me that you're sorry
'Cause no-one else is sorrier than me Whatever happened to the person I once knew
You always had my back when all the bullets were flying
You know we had it all but I would take the fall
And never turn my back on the ones who love me When it's time to die
You can cry your heart out when you're lying face down
The chords they never lie
Don't tell me that you're sorry
'Cause no-one else is sorrier than me GUITAR SOLO When it's time to die
You can cry your heart out when you're lying face down
The chords they never lie
Don't tell me that you're sorry
'Cause no-one else is sorrier than me No-one's sorrier than me
No-one's sorrier than me
No-one's sorrier than me
