

Nothing Better to Do

Classy Silhouette

There's nothing better to do
Than loving you
Than loving you
There's nothing better to do
Than loving you
Than loving you
The sun is shining bright
but I can wait until tonight
So I can be with you
That's what I wanna do
is be up under you
Oh Boy you know its true
I can't wait until tonight
For you to come and hold me tight
I want you to spend the night
So we can do it all night
Do it all night
Do it all night
Do it Do it
Do it all night
Do it all night
Do it all night
Do it Do it
Do it all night
theres nothing better to do
Than loving you
loving you
There's nothing better to do
Than loving you
Than loving you
Me you champagne and candlelight
a love cd to set the mood right
Im gonna do all the things you like
and we can do it all night
Do it all night
Do it all night
Do it Do it
Do it all night
Do it all night

Do it all night
Do it Do it
Do it all night
I cant wait until night
that's what I wanna do
Is be up under you
I want you to spend the night
So we can do it all night
