

Love Gets In the Way

Blake Shelton

Little by little, now babe, I've come a long, long way
Pickin' up the pieces that you threw away
Did you give it up, did I let you down? Either way
It doesn't matter now 'cause I'm finally comin' 'round
I hope you find where you belong
Hello, good-bye, life goes on But in another town, in a little place
Looking in the eyes of a pretty face
I ain't no fool, I know what she's thinkin'
I can hold her in my arms
But I could never let her stay 'cause, love
Your sweet love still gets in the way Minute by minute I hear the voice in my heart
Be her man, take her hand and make a new start
So, I think a little less, I drink a little more
'Cause, all in all she's everythin' that I've been waitin' for
She smiles that smile face the fact
Love's a give and take thing and I can't give it back Ohh oh, In another town, in a little place
Lookin' in the eyes of a pretty face
I ain't no fool, I know what she's thinkin'
I can hold her in my arms
But I could never let her stay 'cause, love
Your sweet love still gets in the way In another town, in a little place
Lookin' in the eyes of a pretty face
I ain't no fool, I know what she's thinkin'
I can hold her in my arms
But I could never let her stay 'cause, love
Your sweet love still gets in the way It still gets in the way
Love still gets in the way
Still gets in the way
