

Come Anytime

Hoodoo Gurus

Advisory - the following lyrics contain explicit language:

What is it you want from me?
There isn't much I will not do
If it's only company
You know, I might need that too Won't you
Come anytime, I'm a man of leisure
Come anytime, I await your pleasure Nothing new beneath the sun
We've butchered every sacred cow
Tell me about all the things you might have done
Just tell me what are you doing now, right now Come anytime, I won't give you pressure
Come anytime, I can wait forever
And if you can't make up your mind
We could make it up together Things like this happen every day
Whatever happens, it's okay
Why be afraid when we've got it made
I'll never ask you to explain Come anytime, come anytime
Come anytime
And if you can't make up your mind
We could make it up together What is it you want from me?
You won't shock me easily Maybe it's your heart's desire
Maybe it's your wildest dream
Maybe I'm a gun-for-hire
But baby, don't we make quite a team
Don't we, don't we? Come anytime, I won't give you trouble
Come anytime, or you're seeing double
And I have never been the kind who'd want to
Who'd want to burst your bubble Come anytime, come anytime
Come anytime, come anytime
Come anytime, come anytime And if you can't make up your mind
And if you can't make up your mind
And if you can't make up your mind
Why don't we make it up together
