

# This Christmas Song

Angie Miller

(Verse)

It's cold outside  
There's snow on the ground  
I've been waiting all year  
For Christmas to come around  
But time stands still  
And I don't hear a sound  
'Cause all I think about is you  
Now that Christmas has come around(Chorus)

Oh, we're far apart  
And I don't know where to start  
So I'm just writing This Christmas Song for you  
I'm just writing This Christmas Song for you(Verse)

Seeing all the lights  
Hung up on the tree  
Reminds me of all the good  
That you bring out in me  
'Cause baby your love shines bright  
And it's all I need

Don't give me diamonds or gold  
Just bring yourself to me(Chorus)

Oh, we're far apart  
And I don't know where to start  
So I'm just writing this Christmas song for you  
I'm just writing this Christmas song for you(Bridge)

And when the New Year comes  
Remember you're the one  
That I think about when i'm alone  
and all the world is sleeping(Chorus)

We're far apart  
And I don't know where to start  
So I'm just writing this Christmas song for you  
I'm just writing this Christmas song for you  
I'm just writing this Christmas song for you
