Watching, Wasting, Waiting

Terminal

Watching you taking your time
Wasting mine just waiting on you
Misery might keep me hanging aroundIf you're never gonna let me live this downEvery train I take stops the same place, oh
Right where you areOh, it's been a long time but I hear
You don't wander far from lonesome hours at the bar
Call to ask me why I never come aroundWhen are you gonna let me live this down?Every train I take, stops the same place, oh
Right where you are
Every train I take, stops the same place, oh
Right where you areI was tired of lying alone for you
So I became a desert to your raining, oh
Finding myself in the sun
Oh, I became a desert to your raining, oh
'Cause I don't want to be the oneWatching you taking your time
Wasting mine just waiting on you
You always keep me hanging aroundYou're never gonna let me live this downEvery train I take, stops the same place, oh
Right where you are
Every train I take, stops the same place, oh
Right where you areRight where you are
