

# The Fence / Matthew Shepard's Song

## Peter Katz

Look at this now  
Me on my own  
Here with the stars  
Sleeping alone  
It's just like the times  
When I was not grown  
But now things have changed  
It's somehow more cold  
It's somehow more strange  
I'm somehow less old  
I think once I find my shoes  
I'd like to go home  
Come out and find me I'm here on the fence  
I'm only just slightly broken and bent  
Now come on you two  
It's time to go in  
Let's call it a tie  
So everyone wins  
Our mothers are calling  
You know we're all boys in the end  
Come out and find me I'm here on the fence  
I'm only just slightly broken and bent  
This game of go hide and no seek's been okay  
But seems I had plans with my family today  
Now come on you stars  
Shine now for me  
Light up this night  
This darkness I see  
I must confess  
I'm somewhat afraid  
I mean no offence  
But I wish to leave this place  
Come out and find me I'm here on the fence  
I'm only just slightly broken and bent  
This game of go hide and no seek's been okay  
But seems I had plans with my family today  
Come out and join me I'm here on the fence  
It's an outdoor adventure, a one night event  
The stars and the moon in the sky are just right

If we can keep our eyes open, we'll make it through the night
