

# Take Care

## Big Star

Take care not to hurt yourself  
Beware of the need for help  
You might need too much  
And people are such Take care, please, take care Some people read idea books  
And some people have pretty looks  
But if your eyes are wide  
And all words aside Take care, please, take care This sounds a bit like goodbye  
In a way it is I guess  
As I leave your side  
I've taken the air Take care, please, take care  
Take care, please, take care
