Don't Keep Me Waiting

Silk

Yo G, yo what's up man? I got these young kids
I think they're pretty dope, what's up?
Keep saying about these young kids
Do you think they're pretty dope
I don't know K, what their names
I call 'em Silk, Silk, Silk, Silk, Silk 'n Smooth
Let's see what they can do
Yeah, let's check 'em out
Listen baby, baby yeah
Here we are just the two of us together
Not knowin' what the other one wants to do
I look into your eyes and I see stars shinning
And I know that I wanna make love to you, yes I do
I said, don't keep me waiting, I've waited so long
I want to be right inside your arms, baby
Don't make me wait for you, I wanna spend the night
Oh, I swear I wanna do you good
I swear I'm gonna make it right
Come on baby, baby, let me do
Oh, oh, you gotta, I wanna, let me do it to you, baby
Gotta, I wanna, let me love you, love you
Gotta, I wanna, let me rock you, rock you
Come on, come on
Boy meets girl what a lovely situation
And I never met nobody like you, baby
Can we talk, share a minute of time together?
I wanna lay some of this love on you
Yo Sean
Don't keep me waiting, I've waited so long
I want to be right inside your arms, baby
I wanna be everything that you need
So please baby, you gotta, gonna let me
Let me, oh, oh, oh, oh
I said, you gotta, gonna let me, baby, let me, baby
I said, you gotta, gonna let me touch you right here
I said, let me whisper in your ear
I said, let me hold you real tight
I said, let me, I wanna make love tonight, come on baby
Lay your body down, let me look at you

See, there's so many things
See, there's so many things that I wanna do
Oh, said that you got to, you gotta, wanna let me do
What I wanna do to you
Said that you gotta, wanna, let me do, do, do, do
What I wanna do to you
You gotta, gonna let me love you
You gotta, gonna let me talk to you
You gotta, gonna let me whisper in your ear
Come here, my dear, oh
