

# Long Trip Alone

[Dierks Bentley](#)

It's a long trip alone  
Over sand and stones  
That lie along the road  
That we all must travel down  
So maybe you could walk with me a while  
And maybe I could rest beneath your smile  
Everybody stumbles sometimes and needs a hand to hold  
'Cause it's a long trip alone  
It's a short piece of time  
But just enough to find  
A little peace of mind  
Under the sun somewhere  
So maybe you could walk with me a while  
And maybe I could rest beneath your smile

You know we can't afford to let one moment pass us by  
'Cause it's a short piece of time  
And I don't know where I'd be without you here  
'Cause I'm not really me without you there, yeah, yeah, ooh  
So maybe you could walk with me a while  
Maybe I could rest beneath your smile  
Everybody stumbles sometimes and needs a hand to hold  
So maybe you could walk with me a while  
Maybe I could rest beneath your smile  
Maybe I could feel you right beside 'til I'm home  
'Cause it's a long trip alone  
A long trip alone
