Uncomplicated

Travis Garland

whoa ahh oohh oh yeah...yeah(verse 1)
Easy, yeah that's not a word that applies to me
Simplest look in your eyes
It feels like a million puzzle pieces
Nothings ever easy(bridge)
But nothing makes any sense anymore
And when my world crashes down on the floor,
It's broken up and I need your love
To put it back together and mend my broken heart(chorus)
And there you are
It's like Im staring at the missing part of me
I look into your eyes and it gets hard to breathe
When everything else is crazy, I'm uncomplicatedIts so easy so easy so easy
When Im with you
Its so easy so easy its so easy
Talking with you
Its so easy so easy so easy
My love for you is uncomplicated(verse 2)
Can't understand it's something that I barely said
I can't read a map for my life
It feels like a hundred pounds of pressure
Leaving no direction(bridge)
But nothing makes any sense anymore
And when my world crashes down on the floor
(You know Im so broken up)
Its broken up and I need your love
(And I need your love)
To put it back together to mend my broken heart(chorus)
And there you are
It's like Im staring at the missing part of me
I look into your eyes and it gets hard to breathe
When everything else is crazy, I'm uncomplicatedIts so easy so easy so easy
When Im with you
Its so easy so easy its so easy
Talking with you
Its so easy so easy so easy
My love for you is uncomplicated(verse 3)
And so touch my hand
And I'll touch your hand

I don't understand all that you will love in me(bridge)
But nothing makes any sense anymore
(Its so easy so easy so easy)
And when my world crashes down on the floor
Its so easy so easy so easy
(Put it back together and mend my broken heart)(chorus)
And there you are
Its like Im staring at the missing part of me
I look into your eyes and it gets hard to breathe
When everything else is crazy Im uncomplicatedIts so easy so easy so easy
When Im with you
Its so easy so easy its so easy
Talking with you
Its so easy so easy so easy
My love for you is uncomplicatedIts so easy so easy so easy
Its so easy so easy so easy
When Im with you
Its so easy so easy so easy
Its uncomplicated
Its so easy so easy so easy
Its so easy so easy so easy
Its so easy so easy so easy
