Good As Gold

Tiga

Te ala te ala
My baby, don't rush me, I know it's coming
But let's not go crazy, you've got you're reasons
Reasons I know, you'll never be aloneTe ala te ala
My baby, don't rush me, I know it's coming
But let's not go crazy, you've got you're reasons
Reasons I know, you'll never be aloneYou dance on the dance floor
You're locked in my sights
You hide in the crowd
And get lost in the lightsNow these feelings I'm feeling
They cut to the bone
Te ala te ala
You're good as goldAnd now I know who's in control
And now I know who's in control
And now I know who's in control
And now I know who's in controlAnd now I know who's in control
And now I know who's in control
And now I know who's in control
And now I know who's in controlAnd now I know who's in control
And now I know who's in control
And now I know who's in control
And now I know who's in controlAnd now I know who's in control
And now I know who's in control
And now I know who's in control
And now I know who's in controlYou dance on the dance floor
You're locked in my sights
You hide in the crowd
And get lost in the lightsNow these feelings I'm feeling
They cut to the bone
Te ala te ala
You're good as goldNow I know who's in control
Now I know who's in control
Now I know who's in control
Now I know who's in controlNow I know who's in control
Now I know who's in control
Now I know who's in control
Now I know who's in controlNow I know who's in control
Now I know who's in control
Now I know who's in control
