

Paradize Bay

Europe

Lay your hand upon my shoulder
Say something that I want to hear
Time will wash out every trace of sadness
If only you are near I've tried so hard to be somebody
But now I'm found And we can be together
And travel far away
And we can love forever
In some of Paradize Bay Carry me, oh bring me out of fantasy
Tell me this is real
Tell me that you won't give up
And tell me it's a good thing to feel
