# Monterey

## The Milk Carton Kids

I can hear the road call
I can hear the road call out my nameA journey made
Mercy paid
An old refrain
To light the wayI can see the North Star
I can see the North Star overhead
I can see the North Star
I can see the North Star from this bedBeneath the sky
The night betrayed
Rescued by
The Milky WaySummon out the rain clouds
Someone's sure to hear how loud we sing
Blinded by the notion
Of fog in an ocean all around
Oh Monterey
How can I say?
I'll always stay
And slip awayI can show the world 'Ma
I can wake the world out from her sleep
I can show the world 'Ma
I don't fear the world from my two feetA prayer to keep
To hide away
Our love will read
The ash and clay
Of MontereyOh Monterey
How can I say?
I'll always stay
And slip away
Oh, Monterey
