

# Holy Creation

**Kris Kristofferson**

So many questions  
So many answers  
So many reasons  
Most of them wrongFacing the future  
With the faith of my father  
I let a stranger  
Into my homeAnd right there before me  
I saw it happen  
There's no denying  
Nothing's the sameThe truth is a highway  
Leading to freedom  
All is forgiven  
Love is to blameChorus  
And I've seen him hold her  
With his head on her shoulder  
Singing her love songs  
Soft as her smile  
Tender affection  
Under the rainbow  
Holy Creation  
Mother and childI know the story  
I read the papers  
I see the anger  
I feel it tooBut when I see the wonder  
In the smiles of my children  
It reminds me of dreams  
Worth coming trueRepeat Chorus
