

Big City Love

Laleh

Along the big city walls
I walked for a while
Looking for that face
I always recognize
Hello hello
Itâ€™s been a while
Ages ago
But your voice still feels

This is what they call
Big city love
Just play it by heart
â€™Cause I believe in true love
This is what they call big city love
Play it by heart
Though itâ€™s a sad sad call

This is what they call,
Big city love
â€™Cause I believe in true love

Thereâ€™s no where to fall
Along the city walls
Along the city walls

And all the letters that you wrote
I want them all gone
I send them back to you
With a red heart on them
And in my memories Iâ€™ll try
Erasing you for good
And all the hopes I had
Projected on you

Was looking for
Was looking for
A place to hide away, to hide away
Instead I lost, instead I lost the
Heart I gave away,
Oh we sang those songs

Sang those songs
You comfort me you comfort me
And now and now
Letâ€™s call it destiny

This is what they call
Big city love
Play it by heart
Cause I believe in true love
This is what they call
Big city love
Play it by heart
Though its a sad sad call
This is what they call
Big city love
Play it by heart
Because I believe in true love

[Repeat:]

Thereâ€™s no where to fall
Along the city walls.
