

# Under Construction

## Beneficence

Brick, brick  
Brick by brick  
You know you build up a pretty big bridge  
Now don't you tell me SOMETHING  
All over again  
Caution here  
Now I'm scared I may just hit my head  
You're taking me step by step  
I'm falling again  
You got me under construction  
Walls  
Wall by wall  
You felt this home barely hanging at all  
But I know you won't let me fall  
All over again  
Nail by nail  
I hear you pushing, you pushing me well  
You know when I'm going through hell  
You feel me again  
You got me under construction
