

Driving Away

Holiday Parade

She's driving away from me as we speak
My letter in her hand
Her tongue in her cheek
She's listening to Morrissey
All the while living like James Dean
She's driving away before it gets tough
Leaving me with my guitar
I'll leave you with this song
Two verses and chorus
Maybe if I'll play it loud
You'll sing along
Sometimes you gotta scream it
Just go
Roll the windows down
With this song on the radio
You sing it out loud
Send you a postcard
As soon as I get there
Drive, drive, drive me to anywhere
She's driving away but stuck in the past
Why does it seem so long ago
And it all moved so fast
A girl with no solution
Yeah you had me but I knew it couldn't last
She's driving away convinced it's a crime
That I'll continue singing 'til there's no breath left to rhyme
Too scared to take that next step
With no idea where we'll end up
I got nothing, she's got nothing
That's just fine
And now I got you singing it
Go
Roll the windows down
With this song on the radio
You sing it out loud
Send you a postcard
As soon as I get there
Drive, drive, drive me to anywhere
Do you need me to spell it out for you
Explain how one turns into two
I look back on the hell you put me through
And I am done now
Honey, be on your way
She's driving away from me as we speak
Go
Roll the windows down
With this song on the radio

You sing it out loud
Send you a postcard
As soon as I get there
Drive, drive, drive me to anywhere. Just go,
Roll the windows down
With this song on the radio
You sing it out loud
Send you a postcard
As soon as I get there
Drive, drive, drive me to anywhere. She's driving away from me as we speak...
