

# You Mean to Say

**Jessi Colter**

You mean to say, you're gonna go an' leave me  
You mean to say that it'd be that easy  
You mean to say that it's you I see, walkin' awayWhat'd I say What'd I do wrong'  
Could it be I stayed here too long'  
You mean to say you'd walk away from meYou mean to say the love we knew  
Is now at an end, is now at an end  
You mean to say by walkin' away  
We'll never love again, we'll never love againOkay, okay, you must be going  
But you don't go before I'm knowing  
What'd I do to make you change your mindYou mean to say the love we knew  
Is now at an end, is now at an end  
You mean to say by walkin' away  
We'll never love again, we'll never love again  
(Never love again)  
We'll never love again, we'll never love again  
(Never love again)
