

Love 2 Love U

Britney Spears

I love to love ya!
I can't stop dreamin' about you
Your eyes make me melt away into the day
One kiss on my neck drives me crazy (crazy)
One touch leads you close enough
For you I crave
Aint got a worry in the world
Aint got nothin' to care about
When youre around I can't be down
Aint gotta hold me back from nothin'
Aint got a problem in the sky (in the sky)
Aint gotta ever ask me why
When youre around there aint no doubt
You aint gotta hold me back just let me
Go (go)
Watch me get down and
Go (go)
When I come around just let me go
I love to love ya
Go (go)
Watch me go down and
Go (go)
When I come around just let me go
I love to love ya
I just can't help myself (yeah)
I can't live one day without you
No stopping the way I feel its so surreal
Make me go AHH boy I lose it
I just cant control myself its so intense
Aint got a worry in the world
Aint got nothin' to care about
When youre around I can't be down
Aint gotta hold me back from nothin'
Aint got a problem in the sky (in the sky)
Aint gotta ever ask me why

When youre around there aint no doubt
You aint gotta hold me back just let me
Go (go)

Watch me get down and
Go (go)
When I come around just let me go
I love to love ya
Go (go)
Watch me go down and
Go (go)
When I come around just let me go
I love to love ya
I wanna hold you wherever you are
There aint no time thats wrong
Aint no place thats too far
Not a care in the world
Just for you, just for me
Where a boy loves a girl and that girl
That girl is me
Aint got a worry in the world
Aint got nothin' to care about
When youre around I can't be down
Aint gotta hold me back from nothin'
Aint got a problem in the sky (in the sky)
Aint gotta ever ask me why
When youre around there aint no doubt
You aint gotta hold me back just let me
Go (go)
Watch me get down and
Go (go)
When I come around just let me go
I love to love ya
Go (go)
Watch me go down and
Go (go)
When I come around just let me go
I love to love ya
