Deconstruct

Godhead

I've fallen in far too deep
There's no fear of losing sleep
I'll never feel peace again in life
There's no turning back this time
It's too late to change my mind
I'm trapped in this box of paranoia
Close my blind eye
To what you've done to me
You've deconstructed me
So I will bleed your sickened life dry
I'm killing your world outside
The walls you have fortified
Are crumbling down with your self pride
I'm taking the words you said
Repeating them in my head
Destroying your lies is my salvation
Close my blind eye
To what you've done to me
You've deconstructed me
So I will bleed your sickened life dry
Close my blind eye
To what you've done to me
You've deconstructed me
So I will bleed your sickened life dry
Close my blind eye
To what you've done to me
You've deconstructed me
So I will bleed your sickened life dry
