

Evil

45 Grave

Blind me with all your lies, you're evil
I can look into your lies, you're evil
I can look into your face, you're evil
Lying all over the place, you're evil Hey ma, run into the night
Into the night to roam
You lie, you know Those looks you give me tell me that you're evil
I hope I don't see you alive, you're evil
You, yeah you, you're so evil
You're so evil, you're evil, you're evil Hey ma, run into the night
You're a creature of destruction
I bet you know Into the night, into the night to fight
Come on baby let's fight, ha ha ha Those looks you give me tell me that you're evil
I hope I don't fit in your plans, you're evil
You, yeah you, you're so evil
You're so evil, you're evil, you're evil Hey ma, run into the night
You're a creature of destruction
I bet you know Into the night, into the night to fight
Come on baby let's fight, ha ha ha
