Revolution

Tomorrow

It?s not animal, vegetable or mineral
In Spain they?d sometimes find them
?Ah? you might say, ?He?s beginning?
It changes quickly
But it?s a good thing
The answer to the riddle is
Revolution Revolution

Revolution now
Revolution now
Revolution now
Revolution now

A time will come when we?ll be free
When we can talk and meet and see
Anything that?s going on
Everything right or wrong
Free
Flower children spreading love ? that?s a start
You can tell those with a heart
Sunrise ? it?s so nice
Open eyes ? see it twice
Free

Try not to walk about the place on your own
Be careful what you say to police on the phone
Have your own little revolution
Have your own little revolution
Have your own little revolution now
Revolution now
Revolution now
Revolution now
Revolution now

Happiness is hard to find
We just want peace to blow our minds
Don?t you see ? our thing
Bringing anything you want to bring

Try not to walk about the place on your own

Be careful what you say to police on the phone
Have your own little revolution
Have your own little revolution
Have your own little revolution now
Revolution now
Revolution now
Revolution now
Revolution now
Revolution now
Revolution now
