## Martin Eyerer & Stephan Hinz

Give me what I want  
I want to leave  
Leave behind  
Tell me how to free my body, find peace of mind  
This is getting good  
I'm feeling like I'm alive  
Show me who I am  
I'll leave my world all behind

I wanna go to a place that I know is real  
I need to find a new place for my mind to heal

Gonna make my way from the shade to the light  
Vibrations gonna ecco on through the night  
I've been here before  
Different straits, different times  
Show you who I am  
I'll leave my world all behind

'Cause I wanna go to a place that I know is real  
I need to find a new place for my mind to heal

Feel no doubt  
You know we're gonna make it out  
Don't be scared  
See my body lying there  
Don't be scared  
See my body lying there

I wanna go to a place that I know is real  
'Cause I need to find a new place for my mind to heal  
Gonna make my way from the shade to the light  
Vibrations gonna ecco on through the night
