

End of the World

Gary Moore

There is only tomorrow
Nothing but sorrow waiting for you
Don't look for any mystery
It's only history, we're passing through
The threat from the east
Growing stronger with each passing hour
All systems are failing
And talks with the west have turned sour
The leaders are waiting for blood on their hands
Playing with weapons they don't understand
Could it be this time we'll see the end of the world
Each day brings a new danger
Love is a stranger we used to know
Outside, the sun goes on rising
But we're realizing and that's not long to go
The storm clouds are forming
Take heed of the warning to come
The Kremlin has told every nation
There's no place to run
The leaders are waiting for blood on their hands
Playing with weapons they don't understand
Could it be this time we'll see the end of the world
The end of the world
The end of the world
The end of the world
The threat from the east
Growing stronger with each passing hour
All systems are failing
And talks with the west have turned sour
The leaders are waiting for blood on their hands
Playing with weapons they don't understand
Could it be this time we'll see the end of the world
The end of the world
The end of the world
The end of the world
The end of the world
The end of the world
The end of the world
The end of the world
The end of the world
The end of the world
The end of the world
