One Dream

Donny Osmond

There will always be a dream
In the heart of each beginner
Like the promise of a thousand springs
Hidden deep inside each seed
And in spite of what is lost
You are born to be a winner
From the moment you surrender
Believing forever
One dream, one hope
Once chance to see
The miracle of grace unfold
Like wings we hold
Reaching from the heart
Waiting for the spark of one dream
There will always be a place
For the love we have between us
Many languages but just one voice
And the wish for peace, the only choice

May the boundaries melt away
And the light of faith redeem us
For it's only when we learn to trust
We follow together
One dream, one hope
One chance to see
The miracle of grace unfold
Like wings, we hold
One dream, one hope
One chance to see
The miracle of grace unfold
Like wings, we hold
Feel it in the air
All this world has seen
Each of us will always share
One dream
