Dying Star

Ivy

In the back of the bus
I caught you smiling at the rain
Your breath steaming on the window
You've never looked so completely saneNow heaven knows where I am
Heaven knows I did all I can
Heaven knows you'll go far
But heaven knows you're a dying starIn the back of the bus
I caught you smiling at the rain
I turned gliding to the pavement
I've never seen you that way againNow heaven knows where I am
Heaven knows I did all I can
Heaven knows you'll go far
But heaven knows you're a dying starI've seen the wave you ride on
I've seen the wave you ride on
You'll die onNow heaven knows where I am
Heaven knows I did all I can
Heaven knows you'll go far
But heaven knows you're a dying star
