

# Dying Star

Ivy

In the back of the bus  
I caught you smiling at the rain  
Your breath steaming on the window  
You've never looked so completely sane  
Now heaven knows where I am  
Heaven knows I did all I can  
Heaven knows you'll go far  
But heaven knows you're a dying star  
In the back of the bus  
I caught you smiling at the rain  
I turned gliding to the pavement  
I've never seen you that way again  
Now heaven knows where I am  
Heaven knows I did all I can  
Heaven knows you'll go far  
But heaven knows you're a dying star  
I've seen the wave you ride on  
I've seen the wave you ride on  
You'll die on  
Now heaven knows where I am  
Heaven knows I did all I can  
Heaven knows you'll go far  
But heaven knows you're a dying star
