

# Come Down (Jack Wins Remix)

Wstrn

I'ma make your love come down  
I'm just in my zone Tell me that she's prayin'  
Mama keep sayin', my love is for true  
I know you're waiting, need to be patient  
I'm coming for you  
If we're gonna make this work out  
I need you to play your role  
Then we can roll  
I'm on a roll I'ma make your love come down  
I'ma make your love, make your love come down  
Gotta take you all the way down  
I'ma make your love, make your love come down Ah my pretty little mama like woah  
Knows I'm a bad stone  
And she don't moan if I don't come back home  
Knows what the kid does, don't cause I'm naughty  
Knows when I'm with strippers gettin' 'em naughty for me  
Holy for drinkin', knows what I'm thinkin'  
Man, I've got a couple of chicks that I'm linkin'  
Long time, pace, I'ma set it for her on sight  
Baby you better believe that I'll be on right  
She don't care about the rose gold  
Care what them other chickenheads don't know, know  
Better, baby I'll make your love come down  
She's fallin' for me now  
She nice up, everyting tight up  
And that's why it's her street that I'm right up  
Plus I don't wanna roll over the internet  
My baby crisp, but I don't want strings yet You, you make me  
You got me in a way, go crazy  
You, you take me  
No one could make you feel no better  
Ooh go getter  
I'ma make you rain, no wetter  
Tell me right now cause I'm on the way down  
I'm gon love you right now I'ma make your love come down  
I'ma make your love, make your love come down  
Gotta take you all the way down  
I'ma make your love, make your love come down My pretty little mama like ow  
Make your love come down

Come and check me for a one great round  
Never cuff her when the sun stays down  
Never say you don't touch base  
You can do you, never troubling cuh it's alright, all the while  
I'm still in love with how you perform, I sure try  
Duckin' from trouble, buy even more friends worldwide  
Game got her sittin' courtside  
She don't care about the iced out, pinkie, lights out  
Rocky with my styles  
She keep my mind fucked, what is my lifestyle?  
Ziggy, we might bump until you timeout  
Silly, so don't be playin' 'round  
Where you at? I'm comin' over, but ain't staying round  
Baby, I'm about to lay it down  
Feel you up and then I'll take you down You make me  
You got me in a way, go crazy  
You take me  
No one could make you feel no better  
Ooh go getter  
I'ma make you rain, no wetter  
Tell me right now cause I'm on the way down  
I'ma love you right now I'ma make your love come down  
I'ma make your love, make your love come down Gotta take you all the way down  
I'ma make your love, make your love come down  
I'ma make your love come down  
I'ma make your love, make your love come down  
Gotta take you all the way down (take you down)  
I'ma make your love, make your love come down She gon' stay there cause she know I make her love come  
down like  
She gon' stay there cause she know I make her love come down  
She know that I make that money  
Do everything that I want to do
