Lucky Charm

Keith Urban

I was livin on a landslide Fallin fast until you took my Hand, now I won't ever let you go Let you goFour-leaf clover and a horses shoe Knockin on wood was all I ever knew I'm savin all my wishing well pennies and I got so many ever since you came along[Chorus] Sunlight shinin, baby, roll the dice Now that I got you by my side We can't lose No more waitin on a shooting star I'm betting it all on your pretty heart Baby, you're my lucky charmLike an angel from the blue sky Sent to save me from my dark side Yeah, the light inside was fading But I found salvation when I fell into your eyes[Chorus]All I know is I got your love, I got your love, baby Yes, I do

I got your love, I got your love, baby
Oh, I got it, baby
I got your love, I got your love, baby
Whoa, oh, oh, whoa[Chorus]
