

# Visions

## Savatage

black is the night  
Satan laughing with delight  
he's calling you  
to be a servant of his voodoo  
when the hour strikes 13  
listen to the spirits as they scream  
your namebeware - guard your soul  
Sodom is the place  
you're gonna go  
visions of hell, what a thrillwalls aflame  
breathing deep  
you seem in pain  
a lake of fire  
your resistance  
starts to tire  
when the day numbers one  
you'll become one of his sonsbeware - guard your soul  
Sodom is the place  
you're gonna go  
visions of helllight is black  
Satan starts his work of terror  
look out - beware  
when a pair of  
eyes begin to stare  
he knows which ones to take  
God help me for heaven's sakebeware - guard your soul  
Sodom is the place  
you're gonna go  
visions of hell  
visions of hell many many times
