One Way Highway

Taneisha Rachelle Feat. Sway

(one way)
It's just something bout you that changed
but its okay cause I did too
(I'm on a one way)
and It's for the best
so you keep doing you
cause its time to do me.

i woke up this morning and looked into your eyes
and realized that i dont know you no more
i cant control these feelings that i have
i wanna stay in love but, i just cant
(cause all the little lies turned into big lies)
and those lies turned into more lies
you got me sitting here wondering why it took me so long
to find this rode

im on a one way highway
and there aint no turning back
(aint no exits, stoplights, traffic)
i got the green light
and who wouldve thought it would be this easy to say goodbye.
im on a one way highway
and there aint no turning back
(aint no exits, stoplights, traffic)
i got the green light
im on a oneway highway
im on a oneway highway

you say that youre through
well yeah im through too
im tired of trying to make you see
how to treat a girl right
i shouldnt feel this cold at night
you say you wanna give but all you do is take
take away joy leaving me in pain
i dont wanna drown in your storm
(i wont stand by the rain)
well ive given all i can give

and i see that its not working
and i knew that this day was gonna come
but shit, i shouldve never let you in
now im speeding away from today
cause tomorrow will bring me a miracle
(looking in my rear view seeing the clear view)
for the reason why im leaving you

im on a one way highway (ooh,oh-oh,oh,oh)
and there aint no turning back
(aint no exits, stoplights, traffic)
i got the green light
and who wouldve thought it would (oh-woah,woah,yeah)
be this easy to say goodbye.
im on a one way highway
and there aint no turning back
(said im gone,im gone, i gotta go)
(aint no exits, stoplights, traffic)
i got the green light
im on a oneway highway
im on a oneway highway
(and im gone, im gone, im gone)

(you said that)
you'd be there cause youre my man
(but you did that)
one thing that could break me in half
(i know that)
im a big girl and i know how to drive away
before you drive me crazy, yeah-yeah

im on a one way highway (yeahhh-yay-yay)
and there aint no turning back
(aint no exits, stoplights, traffic) im gone
i got the green light
and who wouldve thought it would (im gone, gone, gone)
be this easy to say goodbye.
im on a one way highway
and there aint no turning back (i gotta go, i gotta go woah-oh)
(aint no exits, stoplights, traffic)
i got the green light
im on a oneway highway (yeah)
im on a oneway highway (bye)

bye-bye, i aint never comin back

back, no, nooo, no-woah-oh-oh, yeah
bye bye yeah
bye, bye-bye
