

I Am With You

Rotersand

i am with you from the day
you saw the light and took your mother's breath away
i am with you when you fade
when your soldier's laying down his blunted blade once you'll stay with me
i will set you free
forever free from all your worries and your vanity
there's no need to fear
i will hold you dear
in my arms you'll close your eyes for all eternity i am with you when you laugh
with sudden joy that makes you praise the gods above
i am with you when you cry
when all you ask is why and there is no reply
