Closer

Sanctus Real

I'm not satisfied in this lifetime
I'm following you to the other side
There's nothing that can change my mind
You're all I needYou're the only tie that binds my heart
Away from you I'm falling apart
We need to be closer than we are
You're all I needSo what can I do to get closer?
I know there is more my heart can bear
I give you control 'cause I need you
To take me thereLike a bird flying south I'm seeking you out
And there's no rope that can tie me down
I'm running home, I'm a slave set free
You're all I needSo what can I do to get closer?
I know there is more my heart can bear
I give you control 'cause I need you
To take me thereI am waiting, draw me closer
I am waiting, make me stronger
I am waiting, draw me closerSo what can I do to get closer?
I know there is more my heart can bear
I give you control 'cause I need you
To take me thereSo what can I do to get closer?
I know there is more my heart can bear
I give you control 'cause I need you
To take me thereI am waiting, draw me closer
