

Hold On to the Good Things

Shawn Colvin

It's a beautiful world
It's a beautiful day
And an usual time is coming away
We're on an adventure, hippy poo-eyUp in a balloon
I'm sailing with you
On top of the world
We've got nothing to do
There's a silvery lining
And the sun is shiningHold on to the good things darling
Hold on to the silver lining
Hold on to the beautiful melodies
And leave those worries behind usA little of this, a little of that
The recipe calls for ahead don't look back
With you and me anything is possible
Friends are here to remind usIt's all about friends, it's all about love
And having someone that you know you can trust
We're in this together, it's all about usI'm feeling so good, I'm feeling no pain
I'm washing my troubles, life doesn't change
Life is unfolding, gotta keep on goingHold on to the good things darling
Hold on to the silver lining
Hold on to the beautiful melodies
And leave those worries behind usHold on to the good things
Hold on to the good things
Off we goHold on to the good things darling
Hold on to the silver lining
Hold on to the beautiful melodies
And leave those worries behind usYou can look to the east, you can look to the west
You can look to someone who loves you the best
So good to be a part of the family
Friends are here to remind usHold on to the good things
Hold on to the good things
