

Electro Starfuckers

Rubblood

Good morning motherfuckers
Do you remember me?
You wanted to piss me off
I could eat all of you
The smell of rain covers your skin
I don't want to look
Get out of here
And you'll not see you ever againAnd don't stop the immortalI am the new God
I am the number one
I am the best around
But I wanna die tonightDon't try to be better than me
I can see the target alone
Destroy everything you touch
But what the hell is going
You're as useless as your mother
Why are you asshole?
Do you wanna steal my soul
You did too much damageI am the new God
I am the number one
I am the best around
But I wanna die tonightSex, love, blood, hate
Sex, love, blood, hate
Sex, love, blood, hate
Sex, love, blood, hateI am the new God
I am the number one
I am the best around
But I wanna die tonight
