Living Dangerously

Dami Im

Hoping waiting for a chance I was never taking
Safe here this fear, behind the smile I was faking
But the light you've showed me revealed
The dark don't own me,
So I stepped into the flames
It feels so good to be living dangerously,
In the fire you will find me!
So tell the fear to fear me
That's how it feels to be living dangerously,
In the fire you will find me!
So tell the fear to fear me
That's how it feels to be living dangerously
Living dangerouslyDespite doubt, I stepped out into the future, unknown
This I'm facing, heart racing
But I know that I'm not alone
'Cause the light you've showed me revealed
The dark don't own me,
So I stepped into the flames
It feels so good to be living dangerously,
In the fire you will find me!
So tell the fear to fear me
That's how it feels to be living dangerously,
In the fire you will find me!
So tell the fear to fear me
That's how it feels to be living dangerously
Living dangerously, dangerouslyI used to hide the real me,
Lock and key,
Compromising, always trying
But never feeling free
When I found out who I was born to be
I owned it, in that moment
There's only one me!
Living dangerously,
In the fire you will find me!
So tell the fear to fear me
That's how it feels to be living dangerously
In the fire you will find me!
So tell the fear to fear me
That's how it feels to be living dangerously

Living dangerously (You will find me)
Dangerously (That's how it this to be)
Dangerously dangerously
