

I Got You Now

Kasey Chambers

I got your love
I got your need
I got you wrapped around my finger like a glove
And i got you on your knees
Ya begging me darlin' please
I got your mind
I got your soul
I got you held up like a prisioner cryin' blind
But I got you in control
Baby lets rock and roll
[Chorus] You better hide you conscience under the bed
You aint gonna get me outa your head
You think slipped through the cracks somehow
But I got you now
I got your heart
I got your blood
I got you boilin' up like water from the start
It's risin' like a flood
You're sticken to me like mud

I got your pain
I got your ache
I got you holdin' on with both hands to the chain
Like something's about to break
Baby how much can you take
[Chorus] I got your love
I got your need
I got your mind
I got your soul
I got your heart
I got your blood
I got your pain
I got your ache
[Chorus] I got you now, I got you now, I got you now....
