In The Mirror

Kiss

You were in the right
Until you're left stuck in the middle
I still wonder why
You gave it all for such a little
You
Tell me you're only
Scared to be lonely
On and on
You
Livin' on credit
Want it, you get it
Right or wrong
You oughtta take a look in the mirror
Every line's gettin' clearer
See the face you can't deny
You appear to me
Appear to be lost in confusion
I don't wanna live
Only to die in your illusion
You
Dial information
Station to station
On and on
You
Lie to your lover
Make him your cover
Blindfold on
You oughtta take a look in the mirror
Every line's gettin' clearer
See the face you can't deny
Take a look in the mirror
All your fear gettin' nearer
Nothin' left to get you by
Only a matter of time
Leavin' illusion behind
Tick Tock
You won't realize
'Till all the eyes are truly open
You can't hide away

Throw what you may, when all is broken
Go on and take a look in the mirror
All your fear gettin' nearer
Nothin' left to get you buy
You oughtta take a look in the mirror
Every line's gettin' clearer
See the face you can't deny
