

The Set Up (You Need This)

Reel Big Fish

I guess it's not fair for me to not care
But I don't and that's why you think I'm a great guy But I want you and you want me to
And you need this, wanna give it to you
And I thought this time I'd say something new
Alright, yeah I'll call you, I swear, so next time be there
Can't keep up no more, should quit but what for? 'Cause I want you and you want me to
And you need this, wanna give it to you
And I thought this time I'd feel something new It's not cruel, I do like you
And I want you to feel that I do Yeah, yeah, well I want you and you want me to
And you need this, wanna give it to you
And I thought this time I'd be someone true Yeah I want you and you want me to
And you need this, wanna give it to you
And I thought this time I'd say something new
