

Blaze Bayley

What is the reason God blessed me with sight?
 And shows me these signs in the sky
 Where my observations are now leading me
 I am just so afraid to describe
 My certainty
 The center of the universe is the earth
 The Holy Father has decreed
 But I believe this heliocentric truth
 Will they burn me for what I believe? In holy flame be purified
 In holy flame How can all this be offensive to God?
 Who created all that I see
 How can I deny what I know to be real?
 Will they burn me for what I believe?
 In holy flame be purified Injuring the holy faith with my blasphemy
 I will face torment, and I will taste pain
 I will be purified in holy flames
 I pray for my salvation
 Offending the Holy Church with my heresy
 Before this court and before Holy God
 I beg for mercy please forgive my sin
 I pray for salvation
 This fact cannot be disputed
 The center of all creation is here
 No debating and no discovery
 Pray for my salvation
 I abjure curse and detest all my errors
 They are contrary to the Holy Scriptures
 I recant for everything I have said
 Pray for my salvation In holy flames I'll be purified And so we turn
 And so we turn
 Turning in a circle in a circle round the sun
