Emotion In Motion

Naked Eyes

I've been wanting you again
And there's no mistake
Like a candle in wind
I've been blown awayEmotion in motion
Emotion in motion
Emotion in motion
Driving me againI don't sleep much anymore
People don't seem real
Either up or on the floor
What is this I feel?Emotion in motion
Emotion in motion
Emotion in motion
Driving me againIt's getting so hard to understand
What is this feeling?
It's getting so hard to understand
Understand, emotion in motionEmotion in motion
Emotion in motion
Emotion in motion
Driving me againEmotion in motion
Emotion in motion
Emotion in motion
Driving me again
