

Emotion In Motion

Naked Eyes

I've been wanting you again
And there's no mistake
Like a candle in wind
I've been blown away Emotion in motion
Emotion in motion
Emotion in motion
Driving me again I don't sleep much anymore
People don't seem real
Either up or on the floor
What is this I feel? Emotion in motion
Emotion in motion
Emotion in motion
Driving me again It's getting so hard to understand
What is this feeling?
It's getting so hard to understand
Understand, emotion in motion Emotion in motion
Emotion in motion
Emotion in motion
Driving me again Emotion in motion
Emotion in motion
Emotion in motion
Driving me again
