

Part Of Me, Part Of You

Glenn Frey

I felt it when the sun came up this morning
I knew I could not wait another day
Darling, there is somethin' I must tell you
A distant voice is calling me awayUntil we find the bridge across forever
Until this grand illusion brings us home
You and I will always be together
From this day on you'll never walk aloneYou're a part of me, I'm a part of you
Wherever we may travel, whatever we go through
Whatever time may take away
It cannot change the way we feel today
So hold me close and say you feel it too
You're part of me and I am part of youI can hear it when I stand beside the river
I can see it when I look up in the sky
I can feel it when I hear that lonesome highway
So many miles to go before I dieWe can never know about tomorrow
But still we have to choose which way to go
You and I are standing at the crossroads
Darling, there is one thing you should knowYou're a part of me, I'm a part of you
Wherever we may travel, whatever we go through
Whatever time may take away
It cannot change the way we feel today
So hold me close and say you feel it too
You're part of me, I am part of you, part of youI look at you, your whole life stands before you
I look at me and I'm running out of time
Time has brought us here to share these moments
To look for somethin' we may never findUntil we find the bridge across forever
Until this grand illusion brings us home
You and I will always be together
From this day on you'll never walk aloneYou're a part of me, I'm a part of you
Wherever we may travel, whatever we go through
Whatever time may take away
It cannot change the way we feel today
So hold me close and say you feel it too
You're part of me, I am part of you, part of youPart of me, part of you, part of me, part of you
