Jump Right In

K. Michelle

Our love is like a warzone, I can't take too many blows,
'Cause then you find my emotions am I staying or getting gone
You said you know good, said you unfaithful
But where you see wrong I see potential.
Your heart you should follow and not your mental
Now I'm officially extending my arms.
I just wanna hold you and get to know the real you
And love you like I'm supposed to,
But you make it so hard to do.
Why can't you just make it easy?
I know this love thing is new to you,
But I can make it easy.
Just take my hand, let me guide you.
Open your heart I'm knocking
Can't come until I'm invited,
I know you're scared of the deep end.
They say the best way to learn how to swim
Is to jump right in, jump right in, jump right in.
Jump right in, jump right in,
Jump right in, jump right in,
Jump right in.
I know that love don't fit your image,
Being committed just ain't your style.
But the minute you try on my love
Imma change your whole attire.
'Cause you keep choosing them and running from me
Wake up and realize what you've been missing.
Empty your past out, I'm not the enemy,
'Cause I'm officially extending my arms.

I just wanna hold you and get to know the real you
And love you like I'm supposed to,
But you make it so hard to do.
Why can't you just make it easy?
I know this love thing is new to you,
But I can make it easy.
Just take my hand, let me guide you.
Open your heart I'm knocking
Can't come until I'm invited,

I know you're scared of the deep end.
They say the best way to learn how to swim
Is to jump right in, jump right in, jump right in.
Jump right in, jump right in,
Jump right in, jump right in,
Jump right in.
I know that you're scared of drowning, jumping in and out of puddles is a let down.
But it's nothing wrong with falling, as long as I'm here, you ain't never gonna touch ground.
I got you covered, there ain't another that can do it how I do it, stay down for you.
But first you gotta step right on the edge and jump in.
I know this love thing is new to you,
But I can make it easy.
Just take my hand, let me guide you.
Open the door, I'm knocking
Can't come until I'm invited,
I know you're scared of the deep end.
They say the best way to learn how to swim
Is to jump right in, jump right in, jump right in.
Jump right in, jump right in,
Jump right in, jump right in,
Jump right in.
