If You Want Me

No Authority

Girl, sometimes I need some help
See, I can't do this thing all by myself
We're supposed to have a mutual love
But I am the only one to give it up
Am I the one that's wrong, to give you love so strong
Yeah, and not get in return?
So let me know right now, anyway and anyhow
What's going on? Tell me please, yeah
If you want me, you gotta show me
You've gotta tell me what it is you're thinking
If you love me, why do you just walk on by?
Baby, let's get it right, ain't no time for slipping
Let me know, end all confusion
Stop thinking that I can read what's on your mind
Girl, I am always here to work it out, so please don't fear
Express your feelings to me, don't keep them inside
'Cause you will hurt yourself and you will hurt my feelings
Let's stop wasting our time
Is it me or someone else? Baby, explain yourself
Let me know the deal, tell me
If you want me, you gotta show me
You've gotta tell me what it is you're thinking
If you love me, why do you just walk on by?
Baby, let's get it right, ain't no time for slipping
Now here's your chance right now
To tell me what you wanna do
Now you can come with me or stay right here
Girl, it's all up to you
See, ya know how it can be
Between the two of us, you and me
Just make up your mind and tell me
How far you want to go?
If you want me, you gotta show me
You've gotta tell me what it is you're thinking
If you love me, why do you just walk on by?
Baby, let's get it right, ain't no time for slipping
