

Disenfranchised Anarchist

The Blameshifters

hurry up and make new drugs
so kids can make them illicit
ban our songs, play bible tunes instead
don't pay attention
is your vacant mind unable to open?lobbying's just bribery
a cult's a cult no matter
who you are or what you wear
the news acts like it's natural
just laughs and grins as republicans win
blond haired blued eyeddisenfranchised anarchistwise words often don't belong
in public symposium
they're just following along a fascist song
so don't just sing along
and those who get confused are left out
just like us
